

Basic Features:

- Magnetic tape guidance with test points (150ft of tape, 10 test points)
- No external cables
- 36" long x 24" wide
- Battery powered – AGM Lead Acid (includes charger)
- RF link, 900 MHz RS-232, for AGV
- Stationary platform for support equipment
- Variable speed differential drive
- Collision sensors
- Full ascii command list

Options:

- Integrated FS-121A turntable, 10 lb. load capacity (shown above)
- Integrated PC w GB Ethernet, monitor and keyboard
- 10GB Ethernet on PC
- 12 VDC 5A DC-DC converter, filtered
- Pure sine inverter, 120 VAC, 600 W, filtered, with power strips.
- RF link, 900 MHz RS-232, 115k baud for AP communications
- Automatic Charging Station
- Full integration
